Our promise. Your season.

WHAT THE ADOPTER RECEIVES

- The full honey quantity for the selected family tier on page 1, handed over in October of the adoption year. Business honey and benefits are defined in the attached quote.
- A certificate of adoption and the chosen name painted on the hive box.
- One two-hour guided family visit with your bees is included in every adoption, for up to two adults and two children. Book with Mark; Sundays are welcome by arrangement. Hive painting and four photo updates are also included.

THE GUARANTEE

The selected family honey share is guaranteed. The honey is insured, and if the adopted hive is lost or has a lean season, the adopter's share is made good from the yard's harvest. This is the beekeeper's commitment to every family adopter, and his confidence in the 4H method and closed-loop apiaries.

THE BEES COME FIRST

Honey is taken only from what the bees can spare after their winter stores are full. A named colony may be requeened or combined with another if it needs help; the adopter's updates tell the story honestly.

PAYMENT

Payment is by cash or e-transfer to mvanderende71@gmail.com, due when this agreement is signed. Places are limited each year; a place is held once payment is received.
