

THE FORAGING BEE / MARK VANDERENDE

Adopt-a-Hive

Name a hive. Follow its story. Help the bees.

The experience

Limited annual family hives keep it personal. Name and paint your hive, keep a certificate and follow four photo updates. One two-hour guided family visit with your bees is included in every adoption, for up to two adults and two children. Book with Mark; Sundays are welcome by arrangement.

Choose the October honey

Tier 1: 12 × 500 ml jars — \$200/year. Tier 2: 12 × 1 kg jars — \$250/year (12 kg). Tier 3: 6 × 3 kg honey buckets — \$350/year (18 kg).

The bees come first

Happy, Healthy, Heavy, Harmony. Natural 4H care and full winter stores come before harvesting. The selected family honey share is guaranteed, even if the named hive is lost or the season is lean; Mark makes it good from the yard's harvest.

A wider purpose

Support bee-first care, youth learning and the developing Honey Wagon. GSAR giving remains unconfirmed; no donation amount is promised. Business Sponsorship starts at \$1,000 and is separate from family adoption.
